- Miro
- Maze
- Dovetail
- Hotjar
- ProtoPie
- Azure DevOps
- Jira
- Salesforce
- SQL
- AWS

INDUSTRIES

- Healthcare & Life Sciences
- Energy / Oil & Gas
- Financial Services & FinTech

PROFESSIONAL SUMMARY

Design leader with 12+ years driving product strategy, UX innovation, and design excellence across enterprise platforms, AI-powered solutions, and customer-facing products. I build and scale high-performing, multidisciplinary design teams — with people-management experience since 2019 — lead end-to-end initiatives from discovery through delivery, and partner with executives, product leaders, and engineering to turn complex business challenges into **scalable, human-centered experiences**. I combine hands-on UX leadership with strategic consulting across Healthcare, Energy, Financial Services, Cloud, and AI/GenAI.

PROFESSIONAL EXPERIENCE

Experience Design Manager / Lead UX Consultant

EPAM Systems Oct 2023 – Present

- Resource & people management** — lead, mentor, and manage a team of 6 designers (Middle to Lead level), overseeing growth, performance, and capacity planning.
- Lead UX/UI strategy and multidisciplinary teams (designers, engineers, BAs, QA) across enterprise and AI-driven engagements for global clients.
- Drive **pre-sales, solution discovery, and design-thinking workshops** that shape client proposals, accelerate decision-making, and win new engagements.
- Establish scalable design systems, UX patterns, and DesignOps practices to ensure consistency across products and markets.

SELECTED ENGAGEMENTS

- Google Cloud Next 2026** — Defined end-to-end experience & interaction strategy for an immersive, gamified storytelling installation showcasing Agentic AI, Knowledge Graphs, IoT, and Google Maps Platform.
- Johnson & Johnson / Janssen (with Google)** — Led discovery and UX strategy for an integrated digital healthcare platform unifying services for healthcare professionals, patients, and internal teams.
- Sandoz** — Shaped information architecture, design patterns, and prototypes for a multi-market digital healthcare platform balancing usability with regulatory compliance.
- FanDuel** — Modernized "Umbrella," an internal customer-engagement and campaign-orchestration platform built on AWS.
- Kongsberg Digital** — Led UX for an industrial work surface integrating onshore planning, offshore drilling, well operations, and marine data.
- AWS / Omantel** — Spearheaded UX and business strategy for a national e-commerce & marketplace platform with integrated Telco services.
- Schlumberger (SLB)** — Redesigned an external developer / API portal for the Oil & Gas industry, improving developer experience and API adoption.

Lead UX Designer / Senior UX Architect

Halliburton Aug 2021 – Oct 2023

- Led UX for enterprise engineering applications enabling **well construction and planning across five global regions** (Saudi Arabia, Norway, Oman, Mexico, USA).
- Built UX artefacts (personas, information architecture, journey maps), UX roadmaps, and long-range plans with Product Owners; created design processes and mentored designers.
- Delivered accessible, WCAG-compliant interfaces; ran heuristic audits, usability testing, and design reviews across teams of 40+ engineers and QA.

- Cloud & Enterprise Software
- Retail & E-commerce
- Telecom · Crypto / Web3

EPAM Systems

People Management

Conflict & problem solving, 1-on-1 techniques, goal setting, development planning

Mobile App Design — Advanced

SKVOT — UX/UI mobile application design

■ EDUCATION

B.Sc. — Micro- & Nanoelectronics (Medical sphere)

NTU "Kharkiv Polytechnic Institute" · 2014–2018

Faculty of Automation & Instrumentation · Industrial & Biomedical Electronics

- ◆ Facilitated SME workshops and 1-on-1s; defined data-driven, intelligent workflows for high-throughput cloud data-ingestion products.

Senior UX Designer

Paxful

Feb 2020 – Oct 2021

- ◆ Designed and tested accessible desktop & mobile experiences for a leading **peer-to-peer crypto marketplace** (300+ payment methods, global user base).
- ◆ Built and maintained the design system with design tokens; ran user research, interviews, and usability testing with cross-functional teams.

Associate Resource Manager

Andersen Lab · in parallel with design delivery roles

Feb 2019 – Aug 2021

- ◆ **People management since 2019** — ran 1-on-1s with designers, prepared salary revisions and assessments, and shaped individual development plans.
- ◆ Interviewed design candidates, prepared designers for client projects, and led mentoring and training initiatives.

UX/UI Designer

Interswitch

Feb 2019 – Mar 2020

- ◆ Delivered **12 banking applications across 4 African regions** for a leading payments platform.
- ◆ Built personas, journey maps, user flows, low/high-fidelity wireframes, internal UI kits, and a shared design system.

UX/UI Designer — Earlier Roles

RedCatStore · Industrial Operations Technology

2018 – 2019

- ◆ Premium fashion e-commerce platform: research-driven wireframing, responsive UI, usability testing, and micro-interactions.
- ◆ Industrial sensor-touch control platform for factory robotics, electronic systems, and IoT — unified device and process management.
